

# TOP REASONS TO Get the COVID-19 Vaccine

- Shown to be extremely effective at preventing severe illness, hospitalization, and death.
- Enables you to gather indoors with fully vaccinated people without wearing a mask.
- Provides protection while visiting restaurants, theaters, and the gym.
- Provides protection while traveling outside Alaska for vacation and business.
- Once you are fully vaccinated, you no longer need to quarantine if exposed to COVID-19.
- Likely provides good protection against the B.1.1.7 variant and other currently circulating variants.
- The more Alaskans who become fully vaccinated, the fewer COVID-19 cases we will have, and the fewer restrictions there will be on businesses.
- Vaccination is the fastest way to reopen Alaska's economy and communities.

**“A great part of being an Alaskan is we do our part to protect those around us, even people we don’t know.”**

Valarie Davidson,  
Alaska COVID Vaccine Recipient
